NEW STEAM ENGINE.

It is not without reason that a good many people think that the English nation is indebted to the steam Engine for her present prosperity & wealth; it is by the force of that machine that she can spin for a great portion of the earth and that a great number of furnaces, forges, slitting and all sorts of mills have been put into motion, where it would have been otherwise impracticable, and has rendered the iron, so abundant in that kingdom, that the erection of iron bridges over navigable waters, is a work practicable by single individuals. The introduction of the Steam Engine into the United States would certainly produce the same effect; but the great quantity of iron which is required for her construction, and the complicated mechanism necessary to produce a motion of rotation from her natural motion of back and forward, will for some time prevent her adoption.

The subscriber respectfully informs the public that he has invented a new way of procuring a motion of rotation on a wheel by the steam, very simple, and with a small quantity of iron, and at a small expence compared to the old way, for which invention it is intended to make application for a patent; but being obliged to leave the country for some time, he is willing to dispose of a part of his right thereto, and will attend to any who will favor him with a call by letter or otherwise, (provided the letters be free from postage) His residence in this city is at Mr. VILLARD's, engineer to the U. States, for about a fortnight, at Philadelphia about the same time, and at New York until the last part of next month. He will also communicate his idea on a way of procuring a blast for furnaces with two or three feet of water fall without a wheel, also a new method of kiln drying corn or grain without danger of scorching it, and a cheap way of making salt.

He has also a good Horse to sell, with saddle and bridle.

20 DOLLARS REWARD.

RANAWAY from the subscriber about the latter part of December last a negro man named LEWIS about 4 or five and thirty years of age. He is very black, about 5 feet four inches high and rather slender made, when interrogated he has a considerable impediment in his speech and discovers much confusion. He had on when he went off a short coat of bear skin cloth very much worn, and a pair of long breeches, of white planes—he was seen the first of January in the county of Fauquier enquiring the way to the city of Washington where if he gets he will probably attempt to pass as a free man, though being very ignorant it is likely his tale will not be a plausible one. The above reward will be given for securing him in any jail so that I get him again and all reasonable charges paid if brought to me.

A BARGAIN.

THE subscriber offers for sale the farm he now occupies, containing near 300 acres with or without the stock thereon.

It is distant from the cities of Georgetown and Washington, about five miles, and well known as a healthy situation. There is much fine fruit thereon, and abounds with springs, affording as good water as in the United States, a considerable proportion of the land has been in clover, and from thirty to forty acres fit for the scythe the ensuing summer. It is now in a very improving state, being altogether clear of broom sedge, and from 40 to 50 acres ploughed and prepared for a spring crop, and from 30 to 40 acres well set with wheat and rye—some part of the land is calculated for tobacco; and plaster of paris answers well with it all. The dwelling house and other improvements may with small repairs, be rendered very comfortable—From its vicinity to two growing cities, many advantages result in supplying the markets. A purchaser may calculate on a good bargain, particularly if an early application be made. Some part of the purchase money will be required in cash or approved negotiable paper: the remainder rendered easy—or negroes received in payment. The subscriber or William Searfy residing on the farm will shew it when required, and the terms made known by application to *Mr. John Thompson*, George Town, or Dr. WM. THORNTON, Washington.

It is probable that he has gone to Jefferson or Berkley county Virginia, where he formerly resided, and from thence will endeavor to go to Kentucky. WILL be given for apprehending and securing in jail a young Mulatto man slave named ANDREW. He is about 23 years of age, 5 feet 8 or 9 inches high, lusty and well made, has short curly hair, and is frequently subject to have several large pimples on his face. He is reckoned to be a sensible fellow of an easy agreeable address for a man in his low sphere of life. As he has not been heard of by me since his elopement, I suspect he has had the address to ship himself as a freeman on board some vessel either at Alexandria or Baltimore. Whoever takes him up and secures him in jail shall receive from me the above reward, as soon as due information thereof is given to me or to Dr. N. P. Causin at Port Tobacco.
