FRANCIS P. HAMILTON,

HAS commenced the practice of LAW, and opened an office on Capitol Hill, in the house formerly occupied by Mr. Claxton.

Nov. 28—3t.

Washington City Boarding House.

MRS. THOMPSON, informs the public, that having taken two of the six buildings, she has it in her power to accommodate a number of ladies & gentlemen, either as transient boarders, or by the year. Travellers, members of congress and others, will find it an eligible spot, situated half way between the President's house and George Town, dry, healthy, and convenient to the public offices, with the advantage of excellent water. She has *Drawing rooms* separate from the family, good apartments for servants, excellent stables and coach houses, and will spare no pains to give general satisfaction to those who honor her with their custom.

Nov. 27—6t

P. MAURO'S
NEW GROCERY AND CROCKERY WARE STORE.

THE Subscriber respectfully informs the inhabitants of the city of Washington that he has lately received from New York and Philadelphia, a large & complete assortment of Grocery's, Liquors, Fruits, and Crockery ware,—that he expects with the first arrivals from Baltimore, a supply of the above articles, and that he has opened store opposite the SEVEN BUILDINGS, where he flatters himself that he will be able to accommodate his customers not only with the best and choicest kind of goods, especially fresh Teas, and Liquors, but on as low terms as elsewhere in this vicinity.

P. MAURO.

P. MAURO, Professor of Music, begs the inhabitants of Washington and George Town, to accept of his hearty thanks for the encouragement he has been favored with, informing them that he does not intend to decline his profession, but that he shall continue as formerly to instruct on the Pianno Forte, German Flute, and Guitar.

Washington city, November 10—tf

Washington, July 26—tf

50 Dollars Reward.

RANAWAY from the subscriber, on the 20th ult. mulatto JOE. Joe is a stout well made dark mulatto fellow, 5 feet 9 or 10 inches high, about 30 years of age—has several large scars on his hands and body, lisps a little. Had on and took with him, a tow linen shirt & trowsers, one pair of nankeen trowsers, also one old surtout coat and old fur hat much worn. Joe can write a tolerable good hand, & has run away before, when he was taken up & put in the Frederick town jail & sold out by George Creager in 1805. Any person taking up said fellow, and securing him in any jail so that I get him again, shall receive if taken within the county, 20 dollars, and if out of the state the above reward. If brought home all reasonable charges will be paid by the subscriber living in Frederick county, Md near New Market.

SINGLETON BURGEE.

N. B. I forewarn all persons from harboring or carrying off said fellow at their peril.

P. S. Joe ran off in company with a fellow named Adam, and they were both lately advertised together; since which Adam has been taken and secured in the jail of York, (Pa.) Joe went in the same direction, and will probably make for Philadelphia, and endeavor to get on board some vessel and go to sea.

Sept. 12—eptf

THE SUBSCRIBER

THOMAS PATTERSON.

Washington city, June 23—tf

JUST PUBLISHED,
And for Sale at D. RAPINE'S Book Store, Capitol Hill,

Original Anecdotes of Frederick the Great, King of Prussia, and of his family, his court, his ministers, his academies, and his literary friends—collected during a familiar intercourse of twenty years with that prince; translated from the French of D. THIEBAULT, Professor of Belles Lettres in the royal academy of Berlin—in 2 vols. price 4 DOLLS.

Few works have been presented to the public so justly esteemed in Europe and America as this. The author has delineated the character of this great man in a manner so ingeniously that no person can read it without feeling a gratification which few works are calculated to produce in a similar degree.

Also just Received,

The life and pontificate of Leo. 10th—4 vols.
Charnock's memoirs of Lord Nelson.
Moore's Epistles, odes, and other poems.
Scott's Lay of the last Minstrel, a poem.

D. R. Has always on hand an extensive assortment of books in every class of literature and science, which he will sell at reasonable prices.

George Town, Nov. 19—2awan

Patent Threshing Machine.

I HAVE invented a machine for threshing all kinds of Grain contained in straw stem or chaff, particularly wheat, this machine has been found on fair trial to answer compleatly the purpose for which it was intended. Farmers now have it in their power to get out their grain with expedition, free of dirt white caps or loss. This machine is constructed on entire new principles; its operation is by flails encircled by a cylinder moved upon friction wheels, and can be regulated at pleasure, to thresh the grain more or less, as the dampness, dryness, or particular kinds of grain may require it. It will be found upon examining the principles on which this machine is constructed, that it will be the fault of the possessor if any grain passes unthreshed; it separates the grain from the straw and chaff, as it threshes also the chaff from the straw; the construction is by no means complicated—not liable to get out of order and not expensive to erect. It has been found by fair experiment the power of four small mules or two good horses, are sufficient to thresh and clean one hundred bushels per day with great ease. Those on extensive farms who wish more grain threshed per day may obtain any quantity they wish, by making the machine larger, and applying more power. If farmers only knew the excessive loss they sustain in getting out their grain in the mode heretofore used, nothing more would be necessary to bring my machine into general use. Those who have small streams on their farms will find they may set the machine going by water at a small expence, by a small tub wheel. To those who are acquainted with the gentlemen whose certificates I annex, nothing need be said; those who are not, will find, on enquiry, for intelligence and respectability they have few superiors. My price for the privilege of using my machine, is fifty dollars. I will dispose of my privilege for counties or states to those who wish to purchase on liberal terms. Letters addressed to me post paid, at Dumfries, Virginia, will be duly attended to.

JAMES DENEALE,

Dumfries, 22d Sept. 1806.

NO. I.

I do hereby certify, that I have a threshing machine erected on the plan invented by Mr. James Deneale, of Dumfries, which exceeds my expectation. A great number of my neighbors who have seen it work, think it does not leave one grain in ten thousand unthreshed; it separates the straw and chaff from the wheat as it threshes.

It possesses many advantages over machines on the Scotch principle, as they will thresh none but what goes in with the ear first; so that all tangled wheat is not much more than half threshed. Mr. Deneale's machine threshes tangled wheat or sheaves put in butt first perfectly clean.

In very dry weather Scotch machines scutch off a great number of heads, a great many of which the utmost care cannot prevent being carried off by the straw; the very ears without straw are perfectly clean threshed by Mr. Deneale's. Scotch machines, take nearly double power to work them. I speak the above from experience; as I had a machine on the Scotch principle, which from the above faults I had not used for several years, and have now pulled it down.

Mr. Deneale's machine will thresh from 80 to 100 bushels per day, four small mules or two good horses will work it with great ease, and I am convinced from the slow pace they go that two oxen would work it.

Although my machine (which was the first erected in this part of the state) has been built but a few months, it is so well approved of that a great many more are either built or now building on the same construction.

It will be shewn in operation to any gentlemen calling on the subscriber, at Beverley's Ford, Fauquier county, Virg.

STEPHEN MILBURN.

September 5, 1806.

NO. II.

I have several years known Mr. Milburn, who has given the within certificate—he is a sensible, judicious, practical farmer, and a man of good character. He is a native of the county of Northumberland, in the kingdom of G. Britain, and has been a successful farmer in this country. I think that great confidence is to be placed in what he says.

DANIEL C. BRENT.

September 13, 1806.

NO. III.

I have had erected on my plantation a Threshing Machine upon the model invented by Mr. Deneale, of Dumfries; this machine separates the wheat from the straw more completely than it can be done by treading in the usual way with horses, and it will, I am persuaded, clean from 90 to 100 bushels per day. I find that four mules will turn the machinery with ease.

WILLIAM CHAMPE CARTER.

Culpepper, 5th Sept. 1806.

NO. IV.

Induced by motives of public good, I wish to make known, that in company with some of my neighbors, we viewed on the estate of Wm. Champe Carter, esq. Mr. Deneale new invented Patent Threshing Machine, performed by Mr West, a most masterly, beautiful piece of mechanism. Notwithstanding the straw was damp and the negro slaver that worked it, awkward, yet on a fair trial it beat out and cleaned upwards of four bushels and a half in half an hour; we carefully examined the straw, which was so entirely cleaned of wheat that therein we did not find more than four or five grains. Therefore, on the whole, I do not hesitate to pronounce it, in my judgement, the most complete and most useful thing of the kind which human wisdom has yet invented.

JOHN STRODE.

Culpeppr, 29th August, 1806.

NO. V.

Since the date of the above, the manager of the estate of Wm. Champe Carter, esq. Mr Reuben Beazeley, a man of good character and respectability, who has had the conducting of the aforesaid machine, has made the following affidavit.

JOHN STRODE.

CULPEPPER COUNTY, TO WIT:

This day personally appeared before me, Mr. Reuben Beazeley, and made oath, that the wheat machine, commonly called Deneale's Patent threshing machine, under his care and direction, on the estate of Wm. Champe Carter, esq as the hands begin to understand it more, gets out wheat faster than at the beginning; and has on fair trial lately cleaned from the straw in the space of half an hour more than six bushels of wheat, and believes it would continue to do that much as long as the four mules that work it could remain at that service, until taken out to give them food and water. Certified under my hand this 12th day of September, 1806.

JOHN STRODE.

IRON WORKS, FOR SALE.

THE Subscriber is duly empowered to contract for the sale of a handsome scite for Iron Works, and eight thousand acres of Land adjoining, lying on the river Rappahannock, about nine miles above Fredericksburg. The scite for the works embraces a small stream with 60 feet fall of water, within 500 yards of its confluence with the river, and immediately above commences the most advantageous seat for water works, of different kinds, commanding the whole source of the river Rappahannock, by a natural canal of about 800 yards in length, into which the whole force of the river may be turned with little expence. There has been a furnace and other works formerly erected here, and the ore found equal and abundant to any in the country, and it has been several times tried by good judges. The title is indisputable, and a great bargain may be had. The subscriber will at any time attend those inclined to view the premises, and can shew the lands, and scite for the works, by an accurate survey he now has, on application to him at Dumfries, Virginia.

JAMES DENEALE.

September 20—6twaw

NOTICE.

THE creditors of Uriah Forrest late deceased, whose claims have arisen since his bankruptcy, are requested to meet at ten o'clock on the first Monday in December next at Mr. Key's office in George Town, at which time a payment of the assets in hand will take place, amongst the claims legally authenticated—those who do not attend, or who have not exhibited their claims, will be excluded.

PHILIP B. KEY, Attorney for the Executrix.

November 3—taw4w

To CONTRACTORS.

PROPOSALS will be received at the COLLECTOR'S OFFICE in Norfolk until the first day of February next, for securing the bank at Smith's Point on the Potomac from working away by the high tides, gales of winds and rains. It is presumed no person will contract without viewing the place, a wall now stands on the shore, and between it and the bank will be required to be filled up with stone, wood, or oyster shells and clay, or marsh mud, with the grass thereon; not more than three feet of sap in pines for filling will be admitted at the bottom of the wall, and bank, the rest must be filled with the above-mentioned materials. A pavement of about twenty feet will also be required around the Light House, of stone or bricks, or filled up with oyster shells, of at least one foot deep mixed with clay or marsh mud.

THOMAS NEWTON, Collector.

November 24—tF
