CORK, July 22d.

On the 1ft inft. intelligence arrived to the Elector of Treves refiding at Augfburg, that his territories on the right bank of the Rhine had been actually entered by the troops of the principality of Naffau, in confequence, it may be prefumed, of the plan of indemnities which has lately been arranged among the Principal Powers.—The outlines of this plan are varioufly reported.—our readers will find the fubftance of what is generally believed on this head in our previous columns.—The Grand Duke of Tufcany, the Prince of Orange, the Houfes of Heffe Caffel, and Baden, are fpoken of as candidates for Electoral dignity, of which the Archbifhops of Cologne and Treves are to be deprived.—The former of thefe, viz. the Archduke Anthony Victor, is, however, to be reimburfed for his lofs by the Coadjutorfhip of Mentz.

During the late Election for Weftminfter, whenever the mob faw a man come up with a clean fhirt or a good coat, they immediately began to hifs him, as they knew there was no chance of his voting for Mr. Graham; we muft do the mob the juftice to obferve, that not a fingle inftance occurred in which the event did not juftify their apprehenfions.

CORK, July 22.

The figns of weaknefs and diffolution exhibited by the Turkifh government, chiefly appear in the difobedience to its orders, of which fo many Pachas are daily affording examples. Thofe fent againft the Arch-Rebel, Paffwan Oglou, have joined him with their refpective divifions—fo that his army is increafed to 20,090, fome fay 40,000 men, by whom the entire of Wallachia has been laid under contribution.—Another Pacha named Georgi Ofman, is committing equal ravages in the neighbourhood of Adrianople, againft whom the Captain Pacha was about to march in perfon.—It is difficult to forefee any other termination to this diforganized ftate of things, except that of which Poland lately furnifhed a lamentable precedent; and it will very much depend on the moderation of the prefent European Sovereigns, whether we fhall not immediately fee that precedent repeated.

The Legion of Honor is now organized in France, and a decree has been publifhed dividing the Republic into 16 parts, in each of which there is to be a company of the Legion. When this inftitution was originally propofed, it was eafy to fee that is was defigned by the Chief Conful to be a means of fupporting his authority. By the mode in which it is formed it will have the whole weight and confequence of a military nobility, and by being thus generally diffufed over the department of the Republic, its general influence will be more ftrongly felt among the great body of the people.

INFORMATION.

I do hereby certify, that on the 13th July, 1802, I directed the proper officers of the cuftoms to give a fair trial, experimentally to Mr. Dearborn's *patent balance*, to afcertain its correctnefs with the ftandard weights of the treafury of this ftate; and particularly its utility, in the facility of weighing dutiable cargoes. The furveyor and weigh mafter of the port, have, after various experiments, and after due examination, reported to me this day, as follows:

That they tried Dearborn's patent balance with the 50, 25, 14, 7, and 4 pounds brafs legal ftandard weights, procured from the treafury of this ftate, and found the patent balance critically correct.

After feveral comparative trials, they report.—

That they weighed in the cuftom-houfe fcales, 10 hogfheads of fugar in one hour, with fix hands. The fame 10 hogfheads of fugar were weighed in the patent balance in twenty-two minutes, with only two hands.

In the fcales 34 barrels of coffee and fugar were weighed in thirty-feven minutes, with two hands. In the patent balance the fame 34 barrels of coffee and fugar were weighed in twenty-two minutes, with two hands.

In the fcales 15 boxes of Havanna fugar were weighed in fifteen minutes, with four hands. In the patent balance, 18 boxes of the fame Havanna fugar were weighed in fifteen minutes, with two hands.

In weighing a hogfhead of fugar in the fcales, it required 3lbs. weight to preponderate the fcale. In weighing the fame hogfhead of fugar in the patent balance, half a pound weight would preponderate the fcale.

Two drays are neceffary to carry from wharf to wharf, the cuftom-houfe triangles, fcales and weights, fufficient to weigh a hogfhead of fugar. One dray is neceffary to carry the cuftom-houfe triangle, fcales and weights, to weigh fmaller articles. The patent balance, with its frame and weights (confifting of only two brafs 33lb. weights, and one brafs 16lb. weights) can be moved from wharf to wharf on a hand cart, with two labourers only.

Any perfon who underftands fimple addition, can in five minutes be taught the ufe of the patent balance.

The patent balance occupies a lefs fpace of ground on the wharf, than the triangle and fcales.

The beam, fcales and weights of the cuftom houfe, were proved by this valuable patent balance, to be incorrect: and by which, as a *true* and *just* ftandard, the neceffary adjuftments are making.

The coft of the patent balance is half lefs than fcales and weights. In all cafes one third, and in heavy articles two thirds of labour is faved: and in its ufe in the cuftoms, dray hire is altogether faved. Hence as refpects its *correctness, facility in weighing*, faving in the *first cost, saving of labour*, and from weights being always liable to injury and reduction of weight, by the removal of the lead neceffary to fecure the handle to the weight, (and to adjuft the weight) the patent balance is rendered, in my judgement, preferable in every point of view, to the common beam fcales and weights It combines the ufe of the common fteelyard (without its imperfection) with the common fcales, but is fuperior to either, from the reafons given. In a word, it is my opinion, that the patent balance requires only to be known & underftood, when it will be univerfally ufed, in preference to the common beam fcales and weights.

At all times it would afford me pleafure to certify the meritorious difcoveries of any perfon—but I feel a more than ordinary pleafure on the prefent occation, to give publicity to the merit of a country-man, an American.

As Dearborn's patent balances are made to weigh from one pound weight and upward, as may be required, it is in the power of every perfon to fuit himfelf with a balance to weigh as much as he may choofe.

Not only as juftice due to merit, but as an encouragement to others, I with pleafure give this certificate, and fincerely hope that Mr. Dearborn will be as generoufly rewarded for his important difcovery, as I feel a conviction that his difcovery of the patent balance will be univerfally ufeful & beneficial to his country.

Given under my hand, at the Cuftom-Houfe of Charlefton, this feventh day of Auguft, 1802.

JAMES SIMONS.
Collector of the Cuftoms.

Proposals

BY A. DAVIS & J. DIXON,

For reprinting by subscription, that scarce and valuable work, the

DEBATES

And other proceedings of the *Convention of Virginia.*—To which will be annexed, a copious index.

CONDITIONS.

I. This work fhall be printed with a neat type, on good paper, in one large octavo volume, and contain upwards of 600 pages.

II. It will be bound in boards, and delivered to fubfcribers at the moderate price of three dollars and a half.

III. To thofe who wifh to have their copies elegantly bound gilt and lettered the price will be four dollars.

IV. As this is a work of great magnitude, and as much expenfe will be neceffarily incurred, two dollars from each fubfcriber will be required in advance.

V. The price will be confiderably enhanced to non-fubfcribers.

TO THE PUBLIC.

The above publication was procraftinated on account of the copy-right being vefted in Mr. Davis, who has now agreed to print the book, in conjuction with the fubfcriber. The public are therefore refpectfully informed, that the work will be put to prefs, fo foon as a fufficiency of fubfcribers are obtained to indemnify the expenfe of paper. Upon an accurate calculation, the price mentioned in the former propofals was found too fmall; the fubfcriber has thought proper to enhance it, and he hopes that thofe who firft intended to patronize the undertaking, will not on that account withhold their fupport, for fo trivial an alteration.
