Do the Walls Stay Dry?

Is there moisture on the food-chamber linings of your refrigerator? Then remember that it is condensing upon the food as well. Remember that this would not be the case if you had a

BOHN SANITOR REFRIGERATOR

And remember that it is this moisture which spoils food, taints it with the odors and flavors of other foods. Let us tell you all about the Bohn Sanitor, its splendid construction, its genuine fused Porcelain lining, its ice economy, and other points of superiority.

Bohn Sanitor Refrigerators are made by the Manufacturers of the famous Bohn Syphon Refrigerators and maintain the same standard of materials and construction. In fact, we will guarantee them to be more efficient than any other make except the Bohn Syphon.

The model illustrated, No. 13, is 36x20x49 inches, and has an ice capacity of 125 pounds. Priced regularly at $40.00, it is temporarily reduced, under our introductory offer, to $31.50. During the introductory period the many other styles and sizes are correspondingly reduced. Write for catalog.
