Put a Bottle in Your Refrigerator and See What Happens

A bottle of grape juice, for example. Leave it in a few hours and see if it is wet and grimy to the touch when you take it out. If you had a

BOHN SYPHON REFRIGERATOR

there would not be the slightest trace of moisture or grime! You can strike a match on the inside wall of a Bohn food compartment!

The grime and moisture which you find on bottles is condensing in the same way upon foods that are exposed—butter, meat, etc. It spoils foods, and transmits the odors and flavors of one to another. You can put onions and butter side by side in a Bohn Syphon Refrigerator without contamination.

Call and let us tell you all about Bohn Refrigerators—the one-piece lining of fused porcelain-steel with the rounded corners, the Syphon System, the wonderful ice-saving Plaximum insulation. If you cannot call, write for our handsome catalog.

Sanitor Refrigerators made in the same factory, side by side with Bohn Syphon Refrigerators, have the same structural excellence, except that the Syphon feature is omitted. No make other than the Bohn Syphon can compare with them. Prices as low as \$18.50.
