NEW YORK †, pop. 3,437,202 (N 9); (Manhattan borough, 1,850,093; Bronx borough, 200,507; Brooklyn, 1,166,582; Queen's borough, 152,999; Richmond borough, 67,021.) On Manhattan Island at m. of Hudson R., and on L. I. Sound (or East R.), and New York Bay. Term. of 14 important R.Rs. running to all parts of the country, including the Erie; N. Y., C. & H. R; Penna.; W. Shore; N. J. Cent.; and others. Exp. Banks. Has one of the finest harbors in the world, and is the commercial metropolis of the United States. The foreign commerce of New York is very large, comprising more than half the entire import and export trade of the nation. Its domestic commerce is still greater, a considerable portion of the country drawing its supplies from this city. Its manufactures are little less important, and have grown rapidly of recent years. These are too various to be epitomized. Some few of the larger being furniture, clothing, machinery, sugar refining, tobacco and segars, printing and publishing, lard refining, malt liquors, musical instruments, etc. Its educational and other institutions include Columbia College, the University of the City of New York, the Cooper Institute, Colleges of Medicine, Law, Theology, etc.; the Astor, Lenox, Mercantile, and other libraries; the Metropolitan Museum of Art, the Museum of Natural History, and others too numerous to mention.

CLEVELAND †, pop. 381,768 (H 1½); CUYAHOGA Co. (N.E.), pop. 439,120. On S. shore of L. Erie at mouth of Cuyahoga R., 150 m. N. W. of Pittsburg, Pa. Lake Sh. & Mich. S'thrn Cleve., Cinn., Chic. & St. L.; N. Y., Chic. & St. L.; and five other railroads. Tel. Exp. Banks. A port of entry, and the second city of Ohio. Has an excellent harbor of refuge, and canal connection with the Ohio river. The principal port on Lake Erie, with a large commerce; its shipping trade in iron ore, coal and lumber being very extensive. The pork packing interests are important, and the petroleum oil refining works are claimed to be the largest in the world. The head quarters of the Standard Oil Company are here. The iron interest is still larger, there being 150 iron and steel manufactories, employing about 18,000 hands. There are also five large ship yards, extensively engaged in building wooden and steel vessels. The institutions of Cleveland include Adelbert College, the Case School of Applied Science, the Western Reserve University, a Public Library, several medical colleges, hospitals, and asylums, etc. Two immense viaducts extend across the gulf, which divides the city, and are among the finest and costliest works of the kind in the United States.

Penna.; Balt. & Ohio; Phila. & Read.; Phila., Wilm. & Balt., and other railroads. Tel. Exp. Banks. A port of entry, the metropolis of Pennsylvania, and, according to the Census of 1900, the third city of the U. S. in population. Philadelphia is principally distinguished as a manufacturing city. Among the most notable of its industries are the Wm. H. Cramp & Co's. Shipyards, and the Baldwin Locomotive Works, with a capacity of 1,000 locomotives annually. In carpets, woolen and cotton goods, and other textile fabrics, its production is enormous, and the same may be said of the products of iron and steel, while many other branches of manufacture are also very largely represented. The domestic and foreign commerce of this city is also large, but is secondary in importance to its manufactures. Among its numerous institutions may be named Independence Hall, the University of Pennsylvania, Jefferson, and other medical colleges, Girard College, Drexel Institute, Franklin Institute, Academy of Natural Sciences, Academy of Fine Arts, Philadelphia Library, the magnificent new City Hall, and Fairmount Park, the largest and most picturesque pleasure ground in the United States.

PITTSBURG †, pop. 321,616 (B 5½); ALLEGHENY Co. (W.S.W.), pop. 775,058. On Ohio R., at junc. of Allegheny and Monongahela Rs. 354 m. W. by N. of Philadelphia. Penna.; Balt. & Ohio; Pittsb. & Lake E.; and several other railroads. Tel. Exp. Banks. The second city of Pennsylvania, and the leading iron and steel manufacturing city in America. Its pig iron product is said to be one-fourth, and its steel product more than one-half of the total product of the United States. The glass manufacture is also very important, the product being claimed to be about one-half of the total produced in this country. Coke is very largely produced, and there are numerous smaller manufactures. The abundance of natural gas fuel gives Pittsburg special advantages in manufacturing. The commerce of this city is also very considerable; oil, coal, lumber, iron, steel, and glass products, etc., being largely distributed. Here are the Western University of Pennsylvania, Pittsburgh Female College (Methodist), a handsome City Hall, a United States Arsenal, etc.

MILWAUKEE†, pop. 285,315 (L 9½); MILWAUKEE Co. (S.E.), pop. 330,017. On Lake Michigan, at m. of Milwaukee R., 90 m. N. of Chicago. Chic. & N. West.; Chic., Milw. & St. P.; Wis. Cent.; Milw., & Superior R.Rs. Tel. Exp. Banks. A port of entry, and the largest city in the State. The manufacturing interests here are numerous and extensive. The Bay View Rolling Mills employ nearly 2000 men, the E. P. Allis machine shops about 1500. Knit goods are very extensively produced. Flour is also manufactured in very great quantities. The mammoth breweries produce annually over 1,000,000 barrels of beer. Other important products are leather, lumber, boots and shoes, carriages, furniture, tobacco and cigars. Milwaukee has an excellent harbor and a very large shipping trade, being among the greatest grain markets in the world. Its wheat shipments are over 9,000,000 bushels annually, and large quantities of corn, barley, oats, rye, flour, and lumber are handled. Here are a State Normal School, an Industrial School for Girls, and, in the vicinity, a National Soldiers' Home.

NEWSPAPERS

—OF THE—

UNITED STATES AND CANADA

ARRANGED BY COUNTIES.

A COMPLETE CATALOGUE OF NEWSPAPERS IN WHATEVER LANGUAGE PUBLISHED IN THE UNITED STATES, TERRITORIES, AND DOMINION OF CANADA, WHICH INSERT ADVERTISEMENTS, ARRANGED ALPHABETICALLY BY COUNTIES AND STATES, GIVING THE LOCATION, NATURAL FEATURES, CHIEF PRODUCTS AND MANUFACTURES, COUNTY SEAT, POPULATION, AND VOTE BY PARTIES AT THE LATEST PRESIDENTIAL ELECTION OF EACH STATE, TERRITORY, AND COUNTY IN THE UNITED STATES, AND THE GENERAL CHARACTERISTICS AND CIRCULATION OF EACH PAPER ACCORDING TO THE LATEST AND BEST OBTAINABLE INFORMATION.

Populations in the United States, unmarked, are from the United States Census of 1900. Those marked with an asterisk (*), are estimated. Canadian populations are mainly from the Census of 1891.

Circulations for which affidavits have been furnished are printed in bold face type; detailed statements are designated by a six-pointed star (*); when neither affidavit nor detailed statement is furnished, they are designated by a double-dagger (‡); those unmarked are estimated.

When statement of circulation is omitted, we have been unable to obtain any satisfactory information, or the paper was established during the current year, or entered for the first time in the ANNUAL, or else is issued for advertising purposes, in which latter case "adv." is placed in the circulation column. The word "decline" indicates that the publishers have declined or objected to furnish any statement for publication.

County Seats are indicated by a dagger (†). Unless otherwise specified the papers are issued weekly.

ALABAMA.

Population 1,828,697.....Dem. Plur. in 1900, 41,619

Dem. vote, 97,131; Rep. 55,212; Peop. 4,178; Pro. 2,762.

STATE CAPITAL, MONTGOMERY.

ALABAMA is bounded north by Tennessee, east by Georgia and Florida, south by Florida and the Gulf of Mexico, and west by Mississippi. Its extreme length north to south is 336 miles, breadth varying from about 150 to 200 miles; land area, 51,540 square miles. The Alleghany range enters the State at the northeast, and extends toward the centre, finally losing itself in mere hills; then follows a tract of rolling prairies, interspersed with pine barrens and exceedingly rich alluvial bottoms, including the cane brake region, one of the richest cotton producing districts in the world. From this to the Florida border and the Gulf the land is generally flat. This part is thinly settled, and is mostly covered with pine forests, which are of great value, while the product of naval stores here is very considerable. North of this is the broad belt of rich black soil, a space of several miles in breadth, constituting the great cotton producing section of the State. The soil then becomes sandy and poor, but abundant water power renders it capable of becoming a fine manufacturing district. The mineral region occupies the northeast part, while the northwest is a good agricultural and stock raising country. The mountain district and the valley of the Tennessee possess fine forests of hardwood timber. Cotton is grown throughout the State, but mainly in the central belt alluded to; tobacco chiefly in the north; very fine wheat in the north and north east; rice in the south; corn largely all over the State. Dairy products, fruits, wool, oats, and sweet potatoes are produced in considerable quantities. Manufactures have been unimportant until lately, when considerable increase has been manifested, but agriculture is by far the leading industry, though it is somewhat rapidly declining in comparative importance. The chief manufactures are flour, lumber, leather, cotton goods and cotton gins, thread and yarn, iron and machinery, that of iron and its products having enormously increased within the past few years. Commerce centres at Mobile. Cotton and lumber are the chief exports. Extensive beds of brown hematite of an excellent quality are found in Bibb, Cleburne, Jefferson, St. Clair, Shelby, and Talladega Counties. Jefferson County is the main seat of the iron production. There are other extensive beds of ore. The coal fields contain thick fields of bituminous coal of several kinds, and the mining and shipping of coal has become a very important industry. Considerable gold has been mined; silver and copper are also found; potter's, porcelain and fire clays, hydraulic limestone, manganese and many other minerals exist in considerable quantities; there are various building stones. The statuary granite and white marble of Coosa County and the variegated marbles of Talladega and adjacent counties are not surpassed by any in the country. There are 66 Counties in Alabama; newspapers are published in all.

ARIZONA.

Population 122,931.....Dem. Plur. in 1900, 1,000 (*Congressional*)

Dem. vote, 8,664; Rep. 7,664; Peop. 292.

TERRITORIAL CAPITAL, PHŒNIX.

ARIZONA is bounded north by Utah and Nevada, south by Mexico, east by New Mexico, and west by California and Nevada; length, north to south, about 400 miles, breadth averaging about 300 miles; land area, 112,920 square miles. It lies entirely within the Valley of the Colorado, which stream forms nearly all the western boundary. The streams generally flow through deeply eroded chasms, among them being the remarkable "Grand Canon of the Colorado." The soil is very fertile when irrigated, even on the alkaline plains; and the mountain lands are well adapted to stock raising and wool growing. Wheat, barley, and corn appear to be the principal crops; Sugar cane has been successfully cultivated in the southwest; but pastoral occupations are better suited to the country, and more profitable than strictly agricultural pursuits. With the increase in the number of irrigating canals, of which there are said to be now 400 miles, representing a cost of $1,000,000, a corresponding increase may be looked for in land subjected to tillage, of which there are millions of acres suited to the growth of every variety of grasses, grains, fruits and vegetables grown in the temperate and semi-tropic zones, and which only require irrigation to make them yield abundantly. The chief wealth of the Territory, however, lies in its mineral deposits. Gold, silver, lead, copper, iron, cinnabar, salt, borax, etc., abound, and the mining and working of gold and silver ores is at present the leading industry. There are valuable deposits of coal and iron, which await the extension of railroads to be developed. There are 13 Counties in Arizona; newspapers are published in all.

ARKANSAS.

Population 1,311,564.....Dem. Plur. in 1900, 36,342

Dem. vote, 81,142; Rep. 44,800; Peop. 972; Pro. 584.

STATE CAPITAL, LITTLE ROCK.

ARKANSAS is bounded north by Missouri, east by Missouri, Tennessee, and Mississippi, south by Louisiana, southwest by Texas, and west by the Indian Territory; greatest length from north to south, 240 miles, and breadth from 170 to 250 miles; land area, 53,045 square miles. The eastern part is low and level, with dense forests and many swamps and lakes, and is frequently more or less inundated by the Mississippi, Arkansas, and other rivers. The surface rises toward the centre, where it is hilly and diversified with forests and rolling prairies. Further west are branches of the Ozark Mountains, comprising the Black Hills in the north, Cane Hills in the northwest, and the Ouachita Hills in the south. The Valley of the St. Francis, in the northeast, is nearly all swamp; the Valley of the Arkansas, from the Indian Territory line entirely across the State, is unsurpassed as a cotton producing country; the Valley of the White in the north, abounding in forests, is also rich in agriculture in the southern part of the State are the Saline, Ouachita, Little Missouri and Red rivers, while in the southeast the Bayou Bartholomew makes a large country tributary to the Mississippi River. The soil is very varied. The river bottoms are very fertile, and yield large crops of cotton, corn, sweet potatoes, tobacco and fruit. The soil is less productive on the uplands, but in many places, particularly north, produces good crops of wheat, oats, and fruit, especially apples. Cotton is the chief staple; corn next. Hay is an important crop. Stock raising is growing rapidly, the mild winters being highly beneficial to stock, and the cost of "keeping up" stock thus avoided. The principal manufactures are cotton seed oil, flour and grist mill products, cotton gins, leather, wool carding, and lumber. The production of black walnut lumber for cabinet purposes is an important industry. In the matter of ores, mechanical and precious, Arkansas is coming to the front as one of the greatest of ore producing States, and millions of dollars are now being used in their development. As a fruit country the northwestern part of Arkansas is unrivalled, especially as to apples. Coal, argentiferous galena, zinc, copper, and iron, marble, grind stone, granite, and kaolin are among the minerals. Good coal is mined in Crawford, Conway, Franklin, Johnson, Perry, Pope, Pulaski, Sebastian, Scott, Washington, White, and Yell Counties. Silver is found in connection with galena in Pulaski and Sevier Counties, and with lead in Benton, Carroll, Independence, Izard, Lawrence, Madison, Marion, Newton, Pulaski, Randolph, Searcy, and Washington Counties; excellent marble, especially in Madison County. Slate for all purposes is quarried in Pike, Pulaski, Polk, Garland and Sevier Counties; Garland County has extensive quarries of Arkansas hone or oilstone. In Pulaski County, a few miles south of Little Rock, very extensive quarries of blue granite have been opened up within the past year, and valuable discoveries of iron have also been made. Among the mineral springs, the "Hot Springs of Arkansas," at Hot Springs, Garland County, are the most renowned. There are 75 Counties in Arkansas; newspapers are published in all.

CALIFORNIA.

Population 1,485,053.....Rep. Plur. in 1900, 39,770.

Rep. vote, 164,755; Dem. 124,985; Pro. 5,024; Soc. Dem. 7,554.

STATE CAPITAL, SACRAMENTO CITY.

CALIFORNIA is bounded north by Oregon, east by Nevada and Arizona, south by Lower California, and west by the Pacific Ocean. A line drawn through its centre, following the curves of the eastern and western borders, would measure about 770 miles. Its greatest breadth is about 330 miles; least breadth, 150 miles; average breadth, 230 miles; land area, 155,980 square miles. It is the largest State in the Union except Texas. The surface is traversed by two great ranges, the Sierra Nevada in the east and the Coast Range in the west, while between them is the beautiful and fertile valley of the rivers Sacramento and San Joaquin. The Yosemite and other valleys are on the western slope of the Sierra Nevadas, and the eastern slope teems with minerals. The north is an elevated mountain region, with a rugged surface and poor soil. The soil of a large part of the State is very deep and rich, and the yield of agricultural products generally is very great. Irrigation is needed in many parts of the state, particularly in the southern portion and is being rapidly introduced. Not less than 3,000,000 acres have been reclaimed in this manner, and the reservoirs and ditches are being extensively added to. For every kind of fruit that grows in semi-tropical and temperate climates, California is, in soil and climate, pre-eminently favorable. The wheat crop is over 40,000,000 bushels a year. Barley exceeds 40,000,000 bushels. Cattle and sheep are largely raised, the cattle numbering 500,000; sheep over 4,000,000. The wool clip is estimated at 35,000,000 pounds. The yield of raisins about 65,000,000 pounds, and the estimated yield of wine 17,000,000 gallons, of brandy 1,500,000 gallons, and of grapes 600,000 pounds. Dried fruits are extensively produced; oranges, lemons, and other tropical fruits, and honey, are raised in the south, and tobacco, corn, barley, and hops in various parts of the State. Beet root, for conversion into sugar, is profitably raised. The olive is attracting a great deal of attention, and justly so, as the State furnishes on its hills and mountain slopes the soil exactly suited to its production, and it is believed that in a few years the California olive groves will rival those of the Mediterranean. Indeed, California is famous for her wheat, wool, vineyard produce, and agricultural products generally, scarcely less than for her yield of the precious metals. The estimated production of gold and silver is $20,000,000, of quicksilver nearly 600,000 pounds, and of petroleum, 12,500,000 gallons, while natural gas has been discovered at Stockton, Santa Barbara, Redwood City and other points. There are numerous other minerals, including valuable deposits of lead, copper, iron, chromium, antimony, borax, rock salt, soda, potash, sulphur, etc. Manufacturing interests are growing rapidly, the principal being lumber, flour, woolens, wine, brandy, tobacco, cigars, machinery, and metallic wares. The annual value of the fishing interest is about $6,000,000. There are 57 Counties in California; newspapers are published in 56.

COLORADO.

Population 539,700.....Dem. Plur. in 1900, 29,661

Dem. vote, 122,733; Rep. 93,072; Peop. 389; Pro. 3,790; Soc. Dem. 685: Soc. Lab. 714.

STATE CAPITAL, DENVER.

COLORADO is bounded north by Nebraska and Wyoming Territory, east by Nebraska and Kansas, south by the Indian Territory and New Mexico, and west by Utah. Average length from east to west 380 miles, breadth, 280 miles; land area, 103,645 square miles. The surface consists of three divisions—the mountains and parks, the foot-hills, and the plains. It is intersected near the center by the Sierra Madre Range of the Rocky Mountains, including the highest peaks, among which are Pike's and Long's Peaks, Mts. Torrey, Lincoln, Gray, Yale, Harvard, the Spanish Peaks, etc. The mountains enclose the wonderful valleys or basins known as parks, many of which are small, but others larger than some entire States. These parks are well timbered, and abound with beautiful scenery, being diversified with low hills and ridges, which contain the sources of all the great rivers that rise in the State. The eastern part of Colorado is an immense plain, well adapted to stock raising. Agriculture is being carried on to a greater extent than ever before. Extensive irrigating ditches have been constructed and are being rapidly added to, both in the river valleys of the west, and along the Arkansas in the east. The total length of canals at the present time is about 4,000 miles; acres irrigated, over 2,000,000. Where water can be had the soil is very productive. The leading farm products are wheat, corn, barley, oats, hay, potatoes, fruits, garden and dairy products. The yield of wheat is over 2,500,000 bushels, of oats 1,500,000, of corn, over 1,000,000, and of potatoes about 3,000,000. Cattle raising and sheep farming are the chief agricultural pursuits. It is estimated to have 2,000,000 sheep, and 1,500,000 cattle, while the wool clip is about 10,000,000 pounds. Lumbering is an important industry, but the mining of gold, silver, and other metals is the chief source of wealth. Large beds of lignite, of good quality, exist, the total extent of coal bearing strata in the state being estimated at more than 26,000,000 acres, or as large as all England. Upward of 2,000,000 tons of coal are produced annually. Petroleum has been discovered, and thirty wells have been opened near Florence. Copper, cement, fire clay, and manganese are worked to some extent, while the iron of the state is manufactured into steel and iron rails. There are 57 Counties in Colorado; newspapers are published in all.

CONNECTICUT.

Population 908,355.....Rep. Plur. in 1900, 28,570.

Rep. vote, 102,567; Dem. 73,997; Pro. 1,617; Soc. Dem. 1,029; Soc. Lab. 908.

STATE CAPITAL, HARTFORD.

CONNECTICUT is bounded north by Massachusetts, east by Rhode Island, south by Long Island Sound, and west by New York. Its average length from east to west is 86 miles; its average breadth, 55 miles; land area, 4,845 square miles. The eastern part is principally composed of rounded hills, which, though stony, afford rich pasturage; and the valleys support a thrifty agricultural and manufacturing population. The Connecticut Valley, near the river, and at a distance from the Sound, is very fertile. In the south the land is broken and the soil sandy and gravelly, but when well manured yields good crops of potatoes, rye, oats, and corn. In the west the surface is rough and the hills are abrupt. There are several good harbors on the coast, and a large business is done in oyster fishing and in the taking of fish for oil and fish-guano. Agriculture employs one-third of the working population and the value of the farms reaches $121,000,000. Dairy products and hay are the principal staples of the east and west. Tobacco is largely grown in the Connecticut Valley. Corn, rye, oats, and potatoes are grown in nearly all sections. The land near the large cities and towns is chiefly devoted to market gardening. The Connecticut River is open to steamboat navigation from its mouth to Hartford. The Thames River is likewise navigable by Sound steamers as far as its formation by the Yantic and Shetucket Rivers in Norwich city, and steamers ply regularly between that city and New York, and, in the summer season, to the seaside resorts. Connecticut is mainly a manufacturing State, it having an unusual abundance of water power, and its industries are very extensive and varied, among the leading productions being clocks, hardware, india-rubber goods, firearms and textile fabrics. Excellent iron is made from Connecticut ores, and very large quantities of brown stone are taken from the celebrated Portland sandstone quarries. The State of Connecticut, and especially its capital city of Hartford, has become celebrated for the extent and solidity of its insurance interests,—the nineteen life and fire companies of Hartford alone representing in capital and assets nearly two hundred millions of dollars. There are 8 Counties in Connecticut; newspapers are published in all.

DELAWARE.

Population 184,735.....Rep. Plur. in 1900, 3,671.

Rep. vote, 22,529; Dem. 18,858; Pro. 538; Soc. Dem 57.

STATE CAPITAL, DOVER.

DELAWARE is bounded north by Pennsylvania, east by the Delaware River and Bay, and the Atlantic Ocean, south and west by Maryland. Its length from north to south is 96 miles, its breadth ranging from 9 to 12 miles in the north to about 36 miles in the south; land area 1,960 square miles. The surface in the north is finely diversified with hill and dale, and southward the land is rolling, with fringes of marshes and swampy tracts along the indentations of Delaware Bay. The most southerly two fifths of the State is in great part a sandy region. Kaolin and iron ore are found in the north. The soil in the interior of the State is light and easily cultivated. The agricultural products are grain, corn, fruit, and market garden produce; peach growing and small products—berries,—are prominent industries. Over one hundred evaporators and canneries are engaged in conserving all kinds of fruits, berries and garden vegetables, at Dover, Milford, Georgetown, Smyrna and other towns in the lower half of the State. Manufactures are various, and are carried on chiefly in Wilmington and its vicinity. Iron goods, gunpowder, paper, leather, carriages, machinery, cotton and woolen goods, and flour are the leading products. Seaford ships immense quantities of oysters, and Lewes is a station for menhaden and other fisheries. Oyster growing and fishing are important industries. Large quantities of timber are cut for ship building, the manufacture of glass and for railroad ties. There are 3 Counties in Delaware; newspapers are published in all.
