

TO THE PUBLIC.

The Proprietors of the Charter for opening the Navigation of the Catawba and Wateree Rivers, having at length seen, with much satisfaction, the completion of the same, and the opening of the same to the navigation of the Catawba and Wateree Rivers during the present year, as at the date of the said Charter...

In the mean while, we have determined to double the number of shares for the purpose of enabling such persons as may choose to become subscribers. The expenses which have been already incurred by the Company, amount to one hundred dollars on each share of the present number, which we doubt not according to the prudent determination, will require 50 to fifty dollars a share.

The Charter of South Carolina is in Proprietary, and these shares are forever exempt from any tax, duty, assessment or imposition whatever. The Act of North Carolina, authenticating the Company, fixes and establishes a toll on all goods and merchandise for 99 years, and exempts their flumes from any duty, assessment or imposition whatever, for the same period of time.

The present proprietors think it a duty incumbent on them, to inform the public, that a very considerable sum is expected to be raised from the sale of vacant lands...

It is further to be remarked, that the Catawba river is the best and most proper site for the establishment of a manufactory, for iron and iron works, and for the navigation of the Catawba and Wateree Rivers...

It is further to be remarked, that the Catawba river is the best and most proper site for the establishment of a manufactory, for iron and iron works, and for the navigation of the Catawba and Wateree Rivers...

poration interest in the lands veiled in the Company by the legislature of this State.

Resolved, That 100 Shares be referred to be offered to the State of South Carolina, and that an equal number of Shares be referred to be offered to the State of North Carolina.

At an ordinary meeting of the Catawba and Wateree Navigation Company, held on the 10th day of March, 1820, the following resolutions were adopted: That an advertisement be published, inviting persons to contract for the opening of Graves Ford and Love's Ford to deep water...

After several comparative trials, they reported: That they weighed in the culm-hole scales, 10 bushels of sugar in one hour, with the following result: The one 10 bushels of sugar were weighed in the present balance twenty-two minutes...

In the Cases 35 barrels of coffee and sugar were weighed in thirty-seven minutes, with the following result: The present balance weighed 24 barrels of coffee and sugar were weighed in twenty-two minutes, with two hands.

In weighing a hundred fuses in the culm-hole scales, 10 bushels of sugar in one hour, with the following result: The one 10 bushels of sugar were weighed in the present balance twenty-two minutes...

Two drays were necessary to carry from wharves to the culm-hole scales, 10 bushels of sugar in one hour, with the following result: The one 10 bushels of sugar were weighed in the present balance twenty-two minutes...

The following resolutions were adopted: That an advertisement be published, inviting persons to contract for the opening of Graves Ford and Love's Ford to deep water...

At all times it would afford me pleasure to certify the meritorious discovery of the culm-hole scales, but I feel a more than ordinary pleasure on the present occasion, to give publicity to the merit of a countryman, an American...

INFORMATION.

I have heretofore certified, that on the 13th day of March, 1820, I directed the proper officers of the culm-hole to give a trial, experimentally, to Mr. Deaborn's patent balance, in ordinary weighing of the cargoes.

At all times it would afford me pleasure to certify the meritorious discovery of the culm-hole scales, but I feel a more than ordinary pleasure on the present occasion, to give publicity to the merit of a countryman, an American...

The above prices are for the beam and iron scales, and for the iron article of the same size as a floor scale in addition to the above, that purchasers may be suitably accommodated without paying for any article they may not want.

The following are the prices of the apparatus at the manufactory: A balance weight from 2 dollars to 20 dollars, and a scale and pan from 8 to 12 dollars according to the size required.

By the above general estimate, the value of beams of any intermediate or larger size may be more accurately estimated, exclusive of the charges of transportation.

Thomas Carpenter, TAYLOR.
