"For the Woman Who Cares"

The secret of a good complexion is the proper treatment of the skin. The epidermis, or outer layer of the skin, contains the pores through which the impurities reach the surface and which fill up with dirt and dust when not properly protected, causing the impurities to find new outlets, which result in blemishes that are unwelcome reminders of one's carelessness. Every woman knows that she cannot properly cleanse and at the same time protect the skin unless she uses two creams.

PLEKO CLEANSING CREAM cleanses the skin, removing the shallow, cloudy, and lifeless look; **PLEKO GREASELESS CREAM** protects the skin against chapping and is an indispensable foundation for face powder. Best results are obtained when these two creams are used in conjunction with each other.

In jars 50c. each. At drug and department stores or sent prepaid upon receipt of price.
