ROMELINK SWINGING COUCHES

are virtually swinging davenport. For the first time, you can have broad, low arm rests in a porch hammock. They are Romelink arm rests. The sumptuously upholstered back, slightly inclined, is adjustable at any angle; and, in every other detail, the Romelink is designed to afford the luxurious ease of a rich davenport, swung from a sturdy metal frame and shaded by a generous awning.

And the colors! A wealth of dainty flowered cretonnes and fashionable solid tones from which to select your Romelink—the one that blends exquisitely with your own porch color scheme.

You can find a representative assortment in any of the better department, housefurnishing or sporting goods stores. Ask for the Romelink.

Sold through dealers only.

The AMPICO Reproducing Piano

AS ENDURING as the MARBLE OF THE SCULPTOR

TODAY the art of the great master pianists is preserved forever. The Ampico Reproducing Piano, the modern miracle of the pianoforte, preserves forever the playing of the great pianists of today. It has made immortal the pianistic genius of the modern giants of the pianoforte.

Imagine an instrument which reproduces the playing of temperamental concert pianists so faithfully as to convince the most experienced musicians! An instrument that will bring such great artists as Godowsky, Ornstein, Carreno, Schnitzer and Bauer to play for you in your own home! The Ampico does this, as proved again and again in public Comparison Concerts, at which some of the greatest living pianists have participated in a direct comparison of their playing with the Ampico reproductions. It has made the genius of the concert artist as enduring as the marble of the sculptor.

THE AMPICO IN THE KNABE
Uprights \$1200 & \$1300 Grands \$1950

Convenient Terms of Payment. Pianos and Players in Exchange.

Five Hundred and Seventy-Five Dollars (\$575)
F. O. B. Brooklyn

Take It With You
On Your Vacation
Erect It Wherever You Wish

Somewhere in your rambles you have discovered the ideal spot for a summer or year-around home.

And perhaps you have thought "If I could only afford to build right here, how delightful it would be. But it's too expensive for me now."

But you do not have to wait; you can have that home right now, with none of the bother of building and at surprisingly small expense. Buy one of these

Bossert Houses

If you can't buy the land, possibly you can rent it, put a Bossert House on it, stay as long as you wish and remove your house when you please.

Bossert Houses are ready-constructed. You put them up or unassemble in sections, all conveniently planned and made ready for you in our 32-acre plant.

The Bossert system of centralizing all the sawing, fitting, and finishing of each section at the factory saves you many a dollar and makes it possible to have

your house months in advance of the usual way of building "piecemeal" on the spot.

But do not confuse Bossert Houses with the cheaply built "knock-down" houses you often see.

A Bossert House, first of all, has individuality, not that factory-made look which says "I'm but one of thousands just like me." A Bossert House reflects your own ideas and personality. We have standardized, not the house, but the method of construction.
