IMAGINE a scene like this on your own lawn! A stage dream? Far from it—this is actually a part of the "front yard" of a small suburban home on Long Island, and the sense of the middle of the forest is the result of landscape strategy, the tactics of adepts in the art of tree planting. And you can command this high art to give romantic, restful, refreshing woodland beauty to your own grounds without a penny's cost for the skill—all you pay for is the trees—at ordinary low prices. And you are not asked to wait long dreary years for this forest effect—you can have it immediately, as if with Aladdin's magic wand—within a week after you say the word. Send us that word today in the mail—or over the phone tomorrow!

Theroz MESS KIT

Patented March 26th, 1918

The Pocket Kitchen

If you're a soldier—you can have hot food and coffee and hot shaving water any time—anywhere, in camp, dugout and trench. If you're a motorist—you can be independent of Hotel or Inn and can cook a full man's size meal on the roadside when hunger calls. If you're a boarding school girl—you can make fudge, Welsh rarebit, tea, and heat your curling irons. If you're a bachelor girl—you can light-housekeep more comfortably than you've ever done—have wholesome, hot meals without interference from your landlady. If you're a real housekeeper—you can cook a delicious luncheon or dinner right at the table; you can make Sunday night supper a cheery, hot meal, instead of a dismal, cold one; you can serve a delectable rarebit or Lobster Newburg after the theatre, and can heat baby's bottle or give the children a jolly picnic—on the lawn when it's pleasant, in the nursery on rainy days.

Adopted by Y. M. C. A. and K. of C. for all Overseas Secretaries.
