# The shops decree satins for fall and soft, loosely woven woolens are in vogue

EVERY frock on this page is "Guaranteed sewed with silk." In New York alone over twenty of the leading shops are now offering silk-sewed garments, each bearing the important label "Guaranteed sewed with silk."

Never before have "lines" been so all-important as this Fall.

Frocks are simple and colors dark. The slim silhouette is in vogue. Soft satins, silks and woolens are the favored materials. In the *lines* of a frock this Fall lies its *chic.*

The only way to be sure of them is to buy gowns "Guaranteed sewed with silk."

That label in these frocks and coats means that the seams will not pucker or shrink or break, that the stitching will not fade, coarsen and collect dust. It means, in a word, that the lines for which you buy any of these models *will hold.*

War time is no time to buy and then after a few wearings find that "somehow" your frock has lost its newness, that it looks shoddy and cheap. Its style is gone—vanished after a few wearings or the first shower. That is what happens when cheap thread is substituted for silk in your frock.

See that the frock or coat you buy is sewed with silk—it means lasting wearing quality and *chic.*

IF YOU WISH TO KNOW MORE ABOUT THIS MOVEMENT

for stamping out this substitution evil and insisting on quality in the very sewing of seams, write for interesting booklet, "Behind the scenes with the men who make your clothes." Address: Publicity Committee, "Silk Sewed Seams," 354 Fourth Avenue, New York.
