

"Jason With the Golden Fleece," the bronze statue which is to be the gift of President Wilson to the nation winning the track and field championship in the inter-Allied games at Pershing Stadium, near Paris. General Pershing and Premier Clemenceau are also offering trophies for the victors in the various events. Keystone View.

An impressive ceremony at divisional headquarters of the Third Army, at Ardenach, in Germany. With the band playing the national anthem and the soldier veterans in close formation standing at salute, Old Glory rises proudly to float above the German Rhine. Technically, the United States Army of Occupation ceased to exist on July 3, and the removal of the troops is rapidly being accomplished. W. N. U.

Mr. Henri Farman, the famous French aviator-inventor, and his largest and smallest aircraft creations. The giant Goliath, now making regular trips between Paris and Brussels, has a regular Pullman car compartment with comfortable wicker chairs for a dozen passengers. The Mosquito is the smallest airplane in the world, with a wing breadth of 16 feet and a 20 h. p. engine. The first standard-built 1,000 are to be retailed at \$800. Above—The Mosquito is shown in flight. I. P. S.

Senator Joseph T. Robinson, of Arkansas, who in 1913 within two weeks was, respectively, U. S. Congressman, State Governor and U. S. Senator, will campaign his state for the league of nations if Senator Reed stumps against it. W. N. U.

Anita Stewart, famous star of the motion picture screen, is an enthusiastic aviatrix. Choosing the pleasanter method of transportation in these days of slow and dusty railroad travel, she contemplated making an aerial trip from Los Angeles to Toledo for the Willard-Dempsey championship. W. N. U.

Mrs. George W. Wightman, women's national lawn tennis champion, and the handsome trophy recently won on the historic turf courts of the Philadelphia Cricket Club, when she defeated Miss Marion Zinderstein. Underwood.

General Pershing reviews the companies of U. S. engineers who constructed the Pershing Stadium at Joinville, near Paris, for the inter-Allied games. The expense of the stadium, which seats 42,000 persons, was met by the Y. M. C. A. I. P. S.
