# This Refrigerator Went Thru the Fire

which recently destroyed the entire kitchen of The Lunch Club, 17 Broad St., New York:

**Saturday Morning—150 lbs. of Ice** placed in the ice chamber.

**Saturday Night the Fire Occurred.** See how the woodwork has been burned and charred almost into the insulation.

**Sunday Afternoon—95 lbs. of Ice** still left in the Refrigerator after the firemen had hauled it out of the ruins!

**Is a Refrigerator whose Insulation Resists Heat like this Likely to Resist Ordinary Temperature Changes?**

Of course, it is a **Incidentally, does this Save Ice?**

# Bohn Syphon Refrigerator

which is **MADE TO RESIST HEAT.** After the fire the food, bottles, ice, etc., were unharmed, and the **PORCELAIN LINING WAS AS GOOD AS EVER!** Just look at it—

It's the wonderful "FLAXLINUM" insulation in the BOHN which makes such a result possible—the greatest heat-resisting insulation ever put into a Refrigerator!

The "Flaxlinum" insulation and the Bohn Syphon System of rapidly circulating pure, cold, dry air, have caused the railroads, dining car companies, fresh meat and fruit express lines to adopt the Bohn Refrigerator system, to the practical exclusion of all others. Not a pound of fresh meat nor a box of California fruit comes into this market except in Bohn Refrigerator cars. Don't the car builders, the meat packers and fruit shippers know about refrigerating systems?

Call in and see this burned Refrigerator, and look at our large line in both wood and white porcelain. Some of the best styles are now marked at attractive prices. We can sell you a real refrigerator as low as \$16. If you cannot call, write for our handsome catalog.
