A WONDERFUL LAMP

The "different" gift you are looking for. Lights the Entire Room by INDIRECT LIGHT. The most artistic and useful lighting fixture ever devised.

Ideal for Living or Reception Room, Library or Music Room.

This remarkable art lamp has side bulbs for lighting the shade such as are employed in the ordinary art lamp. In addition, by simply pulling a switch a powerful light from a large bulb contained in the X-Ray mirrored reflector, as shown, is thrown to the ceiling and distributed over the entire room, furnishing ample illumination for reading or playing cards in any part of the room. The effect is marvelous. A source of constant surprise and pleasure to all.

Visit our Studio for a demonstration, where we have an exhibit of all kinds of fixtures suitable for scientific indirect lighting, or write for booklet describing the Curtis Portable Lamp; also "Lighting the Home." Photo-illustrations of the latest designs in lamps sent on request.
