## Laine de Guerre

LAINES DE GUERRE is subject to imitation, but not duplication. It is exclusively ours.

INSPIRED by a war-time need, *Laine de Guerre* has come to hold the fashion leadership in DRESSES, SUITS and COATS. Paris has adapted this beautiful knitted fabric to many new and pleasing silhouettes.

Woven on the looms of Southern France, it was first introduced to America by Maison Haas. Nowhere else but through our showrooms can the better shops of America procure styles of this serviceable material.

*Laine de Guerre* is not a fabric of passing fancy. The martial spirit of the times prompted its creation. Paris and America have now adopted it. It represents a permanent new fabric that will surpass the leadership of any material that has gone before.

Our showings are now complete. Those stores catering to the fashionable women of their community will do well to feature *Laine de Guerre*, adding to the style dominance of their dress, suit and coat departments.
