ATTENTION

is 50% of good clothes value. For your information let it be said that nearly every merchant tailor purchases woolsens from the same source. The amount of attention, care and good workmanship in each garment is the means of judging clothing quality. Established in 1888 the reputation of this concern has been maintained by our ability to please the eye simultaneously with the brain and today we are making clothes that stamp individuality upon the wearer. At this season we make an extra good suit for \$25.00.

Customers tell me that I am more critical about the Tailored Suits my organization makes for them than they are. Well, it seems to me it is my duty to see that customers wear garments that not only fit them perfectly, but that are best adapted to their personalities. By watching this phase of my business carefully and giving it my personal attention, first fittings are now so nearly perfect that customers are seldom required to have a second try-on. They appreciate being free from the annoyance of many fittings. Do you not think it worth while to get your Tailored Suits where you are sure of their style, their fit, their individual appropriateness? Is it not worth \$100 or more to get a full measure of satisfaction?

Note the Following Partial List

Is Your Refrigerator Like This?

Try this—Put onions, bananas, butter, cheese, cream, side by side, and see if they come out with unspiced flavor. This is a severe test. No Refrigerator in the world will stand it except the **BOHN SYPHON REFRIGERATOR**

Condensing moisture transmits flavors. It also deposits germs from the air and ice, and rots the food. The Siphon System keeps the air dry—so dry that you can strike sulphur matches on any inside wall of a Bohn Refrigerator. A uniform temperature of 40° is maintained, guaranteed to be 10° colder than any other refrigerator made. Practically every Bohn Refrigerator and dining car in the land is equipped with the Bohn Siphon. The car builders know. The Refrigerators for home use are built on exactly the same principle. The "Flaximum" insulation, which makes possible the world-famous Bohn Refrigerator cars, is used also in every Bohn Refrigerator for home use. It is the greatest heat-resisting lining ever made. Call and see our large line, in both wood and white porcelain casings. Some of the best styles, including the one illustrated above, are now marked at attractive prices. We can sell you a Bohn from \$15 up lined with genuine white porcelain, not painted. If you cannot call, write for our handsome catalogue. We are the manufacturers, not middlemen.
