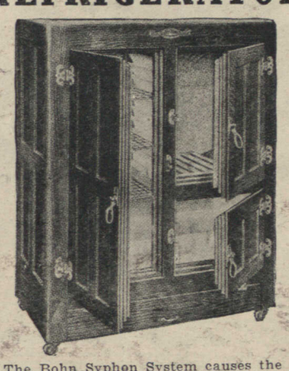
Here's a Test For Any Refrigerator!

Onions and Butter Side by Side!

Try it in YOUR Refrigerator

Does the butter taste and smell of the onions when you take it out? If so, your refrigerator is an *imitation*—just one more of the ordinary "ice boxes," equipped with no effective circulation system. This means impure moisture condensing on food, and this goes on day in and day out.
Perfect refrigeration requires rapid circulation of pure, cold, dry air. This is what has made the world-wide reputation of the

BOHN SYPHON REFRIGERATOR



The Bohn Syphon System causes the air to pass over the ice at frequent intervals. This is why the temperature stays at 40° and why no moisture is deposited upon the food. Everything is so dry that you can strike a sulphur match on any inside wall. The Bohn "Flaxlinum" insulation is the greatest heat-resisting lining ever put into a refrigerator.
Practically every refrigerator and dining car in use in this country is equipped with the Bohn Syphon. The car builders have studied the facts—they know!
Call and see our large line, in both wood and white porcelain casings. We can sell you a Bohn from $16 up, lined with genuine white porcelain, not paint. If you cannot call, write for our handsome catalog. We are the manufacturers, not middlemen.

This second Sunday of Spring brings to your mind the Spring Suit that you know you need.

Some of you have not experienced the satisfaction of wearing a COLE Tailored Suit — a distinctive, aristocratic product which costs $100 upward, and is worth the price.

Only a small percentage of women feel that they can afford such an expenditure for a Tailored Suit—probably not more than 100,000 all told.

I am aiming to make COLE Suits for 1,000 of these 100,000 twice a year.

These 1,000 will be able to appear in suits that are DIFFERENT—that give the wearer freedom from duplication.

Is it not worth $100 or more to be exclusively gowned?
