HOTELS.

Hotel MARGARET
97 Columbia Heights, Brooklyn

Within a stone's throw of the harbor, the Margaret's windows show the full panorama of ships that pass in and out of the port. Atop the building in a delightful solarium, where our guests bask in warmth during the winter days and see all that goes on for miles around. The financial district is just across the river. Rates are famously low.

Large room with bath (two persons), \$45 per month; two rooms with bath, \$60.

Quiet, refinement, homeliness, perfect service and proximity to all centers are but the more important advantages of the Margaret. Meas table d'cote and a la carte. Before taking winter quarters let me show you one of our unusual apartments. Three minutes' walk from end of Brooklyn Bridge.

ADVERTISEMENTS.

Sheffield Plate
Development

IN THE 18th Century, when Sheffield Plate was first made, they roll-plated, or fused, a thin sheet of silver on a heavier base of copper. It was an expensive process and one whose product was hard to work with.

To-day the copper is electroplated. It is easier—it is cheaper—but, above all, it is better. Well made Sheffield ware of to-day is superior to the original Sheffield Plate—but there is only one way in which you can be sure it is well made. Buy it from a house whose reputation is above question.
