Does Your Refrigerator Eat Up Money?

Many people think that when they buy a cheap Refrigerator they are saving money. The fact is that compared with the low expense the first cost shows into insignificance. The Refrigerator which is thoroughly efficient with the smallest consumption of ice is, of course, the least expensive in the end.

BOHN SYPHON REFRIGERATOR

Is enabled by the Siphon System of rapidly circulating, pure, dry air to keep its temperature down to 40°. Naturally ice melts very slowly at only 8" above freezing. Moreover, the insulation of the Bohn Refrigerator is the most effective ever devised for heat resistance. Besides the wood casing and lining, the walls have 7 heat-resisting layers, including two of "Plaxium," the exclusive Bohn insulating material.

It is significant that practically all Refrigerators and Dining Cars in use to-day are equipped with the Bohn System. The Car Builders know!

The style illustrated above, Model No. 43, 39x22x50 inches, 125 lbs. ice capacity, is our most popular model. Regular list price, \$64.00; now specially priced at \$48.00.

The many other styles are also marked at attractive prices. There are Porcelain Lined Bohn Refrigerators from \$16.50 up. Call and see our large line, in both wood and white porcelain exteriors. If you cannot call, write for our handsome catalog. We are the manufacturers, not middlemen.
