The Nestlé Permanent Hair Wave

Before Waving

The fact that your hair, when Nestlé Waved, will retain its soft waviness after a dip in the ocean or under the most trying climatic conditions, is a certainty that accords unmeasurable satisfaction. The Nestlé Wave obviates the necessity for injurious night-curlers or constant trips to the hairdressers, and thus much annoyance and time are saved. Finally, the Nestlé Wave not only makes your hair wonderfully wavy, but benefits it physically.

Nestlé Waved

The treatment takes about two hours, including the two required shampoos. There is absolutely no danger of any injury to the hair, and the results are strictly guaranteed. Mr. Nestlé is in attendance and personally supervises all work.

We will be pleased to mail you our illustrated booklet.

Keeping Candy at Its Best

For chocolates and bon-bons of the well-known excellence and delicacy of Huyler's, refrigeration must be nothing short of perfection. Condensing moisture, impurities in the air or a lukewarm temperature would ruin them in short order. So, it means something that

Huyler's

BOHN SYPHON REFRIGERATOR

This is what they say: "The best possible refrigerator." "Substantial, attractive, efficient." "Keeping Huyler's stock in the best possible condition."

It was only after thorough investigation of the field that Huyler's made their choice. It is purely on a basis of performance that the Bohn Siphon System is used in the refrigerator cars of practically every railroad in the country and by the Pullman Company. Whenever thorough comparisons are made, the result is sure to be the same.

The insulation of Bohn Refrigerators is the greatest achievement in heat resistance. The lining of the food compartments is genuine porcelain enamel (not enamel paint) which has been fused at intense heat into specially prepared annealed steel. The rapid circulation caused by the Bohn Siphon System keeps the air pure, extremely cold and so free from moisture that neither flavors nor odors can be transmitted from one food to another. Try putting onions and butter side by side in any other refrigerator!
