SIMPLEX ELECTRIC IRON.
Made by Simplex Electric Heating Co., Cambridge, Mass. One of the best of its kind. The electric heating element is fused in solid enamel to the upper side of the ironing surface, insuring excellent conduction and distribution of heat. Possesses a rack that allows it to be used upside down for steaming velvet or as a table stove in an emergency when something has to be heated quickly. Price of No. 1906 A, \$4.25.

WESTINGHOUSE ELECTRIC NURSERY MILK WARMER. Made by Westinghouse Electric and Mfg. Co., East Pittsburgh, Penn. First aid to the hungry in the house where there is a nursery. Heating ring can be used in its own cylinder or in any other deep vessel that will hold water. Price, \$7.50.

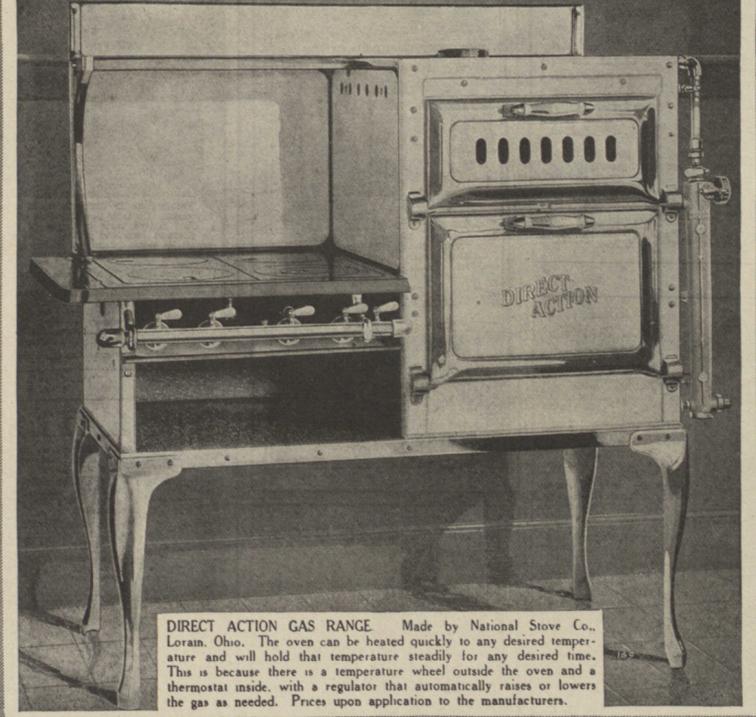

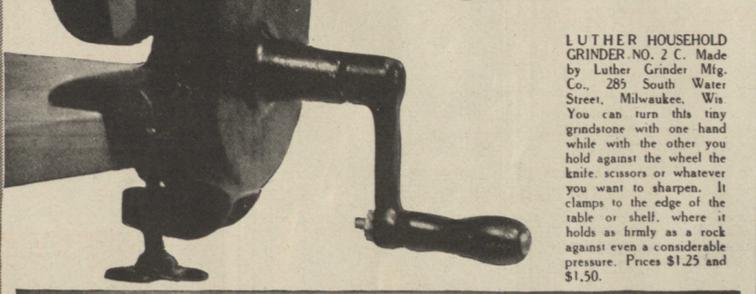

PERFECTION NUT BOWL. Made by the Perfection Nut Cracker Co., Waco, Tex. No nut is too difficult to crack if one owns this machine. The shell breaks away as it should, leaving the meat whole, even in the case of the clinging pecan and firmly rooted Brazil nut not to mention those other exponents of home loving instinct, the butter nut and hickory. Moreover, nut cracker and polished wood bowl are in one very good looking piece of table furniture. Price, \$3.50.

PERFECTION NUT CRACKER. Made by the Perfection Nut Cracker Co., Waco, Tex. This one is twin to the cracker in the Perfection Nut Bowl, but as it is the younger twin it failed to inherit the family residence, and so must seek a temporary foothold on any table edge. Like many other wanderers, it is difficult to dislodge when once attached, but it works for its living as no tramp ever did yet. Price, \$1.

LUTHER HOUSEHOLD GRINDER NO. 2 C. Made by Luther Grinder Mfg. Co., 285 South Water Street, Milwaukee, Wis. You can turn this tiny grindstone with one hand while with the other you hold against the wheel the knife, scissors or whatever you want to sharpen. It clamps to the edge of the table or shelf, where it holds as firmly as a rock against even a considerable pressure. Prices \$1.25 and \$1.50.

DIRECT ACTION GAS RANGE. Made by National Stove Co., Lorain, Ohio. The oven can be heated quickly to any desired temperature and will hold that temperature steadily for any desired time. This is because there is a temperature wheel outside the oven and a thermostat inside, with a regulator that automatically raises or lowers the gas as needed. Prices upon application to the manufacturers.
